HIGH CHARACTER NEEDED BY MAN

The Rev. D. W. Crane Speaks of the Elements of True Manhood.

GREAT MANY POSSIBILITIES

SPEAKER PICTURES THE OCCASION OF THE PENTECOST.

The Rev. David W. Crane, pastor of the First Methodist church, addressed an appreciative audience last evening on the subject, "Wanted—A Man."

The speaker pictured in a realistic manner the occasion of Pentecost, on which the Apostle Peter introduced the risen Christ as one altogether worthy and competent to head and lead the church of God through the ages to come.

For centuries the people of Israel had been in bondage and had hoped for and sought from among their own the Christ. They had observed the life and listened to the claims of the Lord with some little faith, but because he refused to become their temporal king they had finally turned him aside as one unworthy of their confidence and trust.

A great convocation faced Peter that day as he rose to introduce anew the Christ. He referred to Jesus as a man among men; one who went about doing good unto others regardless of his own comfort or interests and cheering his disciples to follow on helping their fellow men as they found them in every avenue of life. The apostle in presenting the risen Christ as one worthy of full endorsement emphasized the claim by declaring that Jesus of Nazareth was "a man approved of God." Then in a forceful manner Peter proceeded to show the different ways in which God had manifested his approbation of Christ in the world.

Privileges of Manhood.

Mr. Crane then turned attention to the high privileges of manhood. The possibilities of social, political and economic development; the opportunities of helping each other, making the world better as we pass through the highway of life; but best of all, the hope given of immortality—the life beyond the grave.

In considering the constituent elements of true manhood, the speaker declared that they did not rest alone in money, position, dress, comeliness, nor yet in knowledge, but rather in character and that true character must be given of God. Jesus came from childhood to youth and on to mature years strong in body and mind; yet for him in order to fulfill all righteousness, it was necessary that he receive, through the Holy Spirit, at Jordan, that higher character which would enable him to be approved of God.

"So marked was the life of Christ among his followers," said the speaker, "that his equal has never yet been found and probably never will be. But God calls us, not to divine perfection, but to the perfection of loving service. He has mighty works to perform, as great as those carried through Moses, Gideon, David, Luther, Wesley, Lincoln and other great men whom he has used, and he is certainly looking for men whom he can trust for the human side of the transaction."

FOR THE PUBLIC

New Formula Cures Coughs, Colds, Bronchitis and Hoarseness in Five Hours.

Much is being done in these days to stop the ravages of consumption, but probably nothing has been so effective as teaching the public how to break up a cold and cure coughs, bronchitis, tonsillitis, etc., with simple, home-mixed medicine, free from opium, poisons, etc. A laxative cough syrup, free from whiskey and poisons is the prime need. A cough indicates inflammation and congestion, and these in turn are due to an excess of waste and poisons in the system. A tonic laxative cough syrup aids the system of congestion, while relieving the painful coughing. Get the following and mix at home: One-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Shake the bottle and take twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less according to age. Cut this out and save it for some friend.

actions. But let it be understood that according to his word of truth, before a man can be approved of God he must seek his face and favor through repentance, prayer and faith. Other qualifications will count, to be sure, but this is one thing so indispensable that God has caused it to be written everywhere in the book and proclaimed from the houseposts as well.

COUNCIL LIKELY TO SETTLE BILL

P. J. Moran May Get His \$20,000 for Work on the Pipe.

Pat Moran will probably get that \$20,000 from the city council tonight. For five months Moran has been after the money, but he could not get it out of the board of public works for repairs on the wooden stove outlet sewer pipe, and the matter was taken up with Mayor John S. Bransford and representatives of the council, T. R. Black, F. S. Fernstrom and L. O. Martin.

When the Campbell Construction company finished the wooden stove outlet pipe there were as many leaks in it as in a well regulated sieve, and the pipe refused to hold water at all. Chairman H. G. McMillan of the board of works was willing at once to accept the job as completed, but a storm of protest was raised, with the result that Moran was ordered to put concrete around the wooden pipe from the North pumping plant to the river. The board said only reinforcement under the railroad was ordered by it, but the mayor and City Engineer L. C. Kelsey told Moran to go on with the rest of the work, as they believed this had to be done to make the pipe serviceable.

And then Moran put in his bill for about \$20,000. The city engineer's estimate for the work was \$30,000, and this amount was finally agreed upon by all but members of the board. Chairman McMillan and Charles D. Rooklidge were the chief opponents of the bill and declared they would stand for only about \$4,000, which was the price for the work under the railroad. After numerous clashes, in one of which members of the board came near being dismissed by Mayor Bransford, it was agreed that the board would stand with the mayor and three members from the council. Councilmen Black, Fernstrom and Martin were appointed.

Conclude to Pay.

The meeting was held last week, at which it was agreed that there was no other way out of it than to pay Moran for the whole work, or the \$20,000. This allowance will likely come up at the meeting of the council tonight and will be allowed. Through the usual bungling, the city has gone into a hole for that amount and can hardly get out of the payment of the bill.

The council will meet at 7:30 instead of 8 o'clock, as has been the custom during the summer months. And the regular meeting hour next summer will be at 7:30 o'clock.

No meeting of the police committee has been held for more than two weeks, and therefore there will be no report on the Fernstrom resolution regarding slot machines. J. J. Stewart of the committee said last night that the Fernstrom resolution is a "silly" one, and another member of the committee said it would probably be ordered filed when action was taken upon the matter by the committee. Members of the committee admit that the ruling of Judge Armstrong on the slot machine cases, wherein he called them gambling devices, is totally different from the case before Justice of the Peace Stanley A. Hanks, when the city purpose to default to allow the slot machines to run. The Judge Armstrong ruling was in regard to machines run similar to the practice at the present time, but not the same as the Hemenway & Moser case.

TRADE OUTLOOK IS STIMULATING

Crop Outlook Is Good and Confidence Permeates All Lines.

New York, Oct. 3.—The brilliant trade and industrial prospects were the stimulating influence in the revived speculation and strength in the stock market last week. The narrowing resources of the money market, the inevitable concomitant of the expanding business and crop moving requirements, were disregarded at the outset, but gained some influence toward restraint on the speculation with the rise in the call loan money rates.

The cheerful views from the iron and steel trade formed a basis for the confidence which permeated all lines of business. A feature which the appearance of the railroads with orders for steel rails for next year's delivery. The Pennsylvania's order for 200,000 tons was regarded as an important sign of the policy of the railroads to resume free purchase of supplies.

Reports of August earnings of railroads showed expansion in gross returns, with a substantial proportion saved for the net through the lesser increase in the operating cost.

The New York money market was slow to respond to the obvious forces of depletion of banking supplies. The effect of the large sums brought to New York in connection with the Hudson-Pulton celebration was the increased speculative activity and the heavy withdrawals of cash, joined with the necessary preparations for the disbursement incident to the October settlements, ultimately affected the money market. The call loan rate rose to the highest point, the highest touched early in 1908, after the decline from the stringency incident to the panic, with the exception of a flurry in December last year.

The restraining effect of the money developments in the stock market, speculation, the serious deterioration in the cotton crops shown by the unofficial estimate which preceded the government report of condition experienced on Monday. Reports from the cereal crops were favorable and the hope grew up of a better yield of corn than was promised by the last government report.

Why Don't You Try?

Why don't you try to be happy. That is, if you are weak and nervous, why don't you try Serrine Pills? They are the best tonic in the world, simply because they are the best for any form of weakness in men and women. Besides, they are guaranteed. Price \$1 a box, six boxes \$5, with full guarantee. Address or call F. J. Hill Drug Co., "The Never Substitutors," corner Second and South and West Temple streets.

Christensen's Dancing Academy, 137 E. First South, will begin this season's work Saturday, Oct. 9, for children and juveniles, and for adults, Monday, Oct. 11. Christensen's Academy is not open to the public, but the patronage of those who care where they go, with whom they associate, how they move and conduct themselves, is solicited.
